Introduction

What is the IN3?

Founded between 1999 and 2000 by **Gabriel Ferraté** (UOC and IN3 president) and **Imma Tubella** (UOC vice president for research and IN3 vice president), the **Internet Interdisciplinary Institute (IN3)** is a research centre at the [Universitat Oberta de Catalunya \(UOC\)](#) specializing in the study of the *network society*. The network society is the result of increased centrality and changes in the conditions for generating knowledge and processing information and data, which were brought on by the emergence of the internet and digital technologies (ICT).

The IN3, unlike other research centres, connects **human sciences** (social sciences, health sciences, humanities, arts, etc.) with **engineering disciplines**, particularly computer science and telecommunications. IN3 research, currently carried out by **10 research groups**, is grounded in **multidisciplinarity, transdisciplinarity and interdisciplinarity**. On the engineering side, the IN3 creates, designs and prescribes new technologies that feed the network society and have an impact on society. And on the human sciences side, the IN3 analyses the effects of new technologies on society and identifies social needs in the context of the network society. The interplay between engineering disciplines and human sciences at the IN3 distinguishes its research work, through which it aims to solve the social and technological challenges of the network society.

In order to maintain scientific excellence, the IN3 hosts a meeting of the **Scientific Advisory Board** every two years. This board, made up of ten researchers from various research centres and universities in Europe and the United States, serves a dual purpose. First, the board periodically evaluates the IN3's research groups and, second, it advises the IN3 on attracting new talent and suggests areas of improvement for the future.

Introduction

Mission, vision and values of the IN3

Mission

The **IN3's mission**, based on research into the knowledge society (network society), puts transversality and interdisciplinarity at the forefront, with a particular focus on the interaction between the human and engineering sciences, and establishes social progress as a major research goal.

Vision

With regard to its **vision**, the IN3 aspires to become a **pioneering centre of reference** for the collaboration of life sciences and engineering disciplines to conduct **frontier research on the network society**. To this end, it focuses its research efforts on **analysing the impact of ICT and internet development on human activity**, leading the formulation of **technological solutions to address the needs and demands of the network society**, and, in doing so, contributing to **social progress**.

Values

The **IN3's values** are commitment, respect, transparency, professionalism, and sustainability.

Introduction

Statement by the director of the IN3

In 2022, we overcame the challenges of lockdown and the emotional exhaustion of working almost exclusively remotely for two full years. It was the year of the long-awaited return to normal life, marking the end of the pandemic, during which our community demonstrated its remarkable resilience and adaptability.

We were back to business as usual, but we also celebrated the opening of a new building on the UOC Campus in Poblenou. Our magnificent new premises are in a prime location, providing an ideal connection with the rest of the UOC's academic community and Barcelona's 22@ technology district. This proximity will strengthen our collaborations and foster an environment of innovation and creativity.

In terms of our results, we have consistently scored excellently well in our performance indicators. We have achieved outstanding results in the areas of high-impact scientific publications and research funding, reaching close to €4 million in new projects, contracts and agreements, almost four times the amount raised before the IN3's reorganization in 2016. This is a good indication of the trust and recognition we have received from the scientific community and from external funders, both public and private.

Introduction

In 2022, we benefited from the opportunities and advantages offered by the TECNIO label granted to us by the Government of Catalonia. This accreditation enabled us to secure new contracts and research projects, thus promoting collaboration and exchange with the productive sector.

I would also like to note that all the IN3 research groups were recognized this year as SGR groups by the Catalan University and Research Grant Management Agency (AGAUR, Government of Catalonia). This recognition is a testament to the effort and excellence of our academic staff, as well as the positive impact that our research has on society.

All in all, 2022 was a milestone year for the IN3. We rose above the challenges of the pandemic, opened a new building, achieved outstanding results and strengthened our position in the science and technology landscape. These achievements reflect the commitment and dedication of our community and encourage us to continue on our mission to drive research and innovation in the digital transformation of society.

Knowledge and research areas

The IN3's knowledge areas line up with the research areas pursued by its 10 groups.

Care and preparedness in the network society (Care and Preparedness in the Network Society ([CareNet])

Understanding the impact of technologies, particularly information and communication technologies (ICT), on the new social and cultural order of care and alertness, and on crisis and disaster preparedness.

Communication networks and social change (Communication Networks & Social Change [CNSC])

Analysing the new forms of citizen participation and political expression brought about by networked movements and emerging technopolitical practices; and studying the role of mobile communication among non-central social groups, generally older people and the low-income population.

Complex systems (Complex Systems @ IN3 [CoSIN3])

Exploring the underlying mechanisms in complex networked systems, based on the convergence between computational social science and urban science.

Digital commons (Digital Commons [Dimmons])

Studying commons, specifically as an organizational form of production (commons-based peer production, CBPP), also known as the 'sharing economy' or 'social innovation'.

Information and network security and privacy (K-ryptography and Information Security for Open Networks [KISON])

Researching the security and privacy of decentralized networks, and protecting intellectual property when dealing with internet-based digital content.

Gender and ICT (Gender and ICT [GenTIC])

Identifying and analysing gender relations in the design, development and use of science and technology innovations, with special attention to information and communication technologies (ICT) and the fields of science, technology, engineering and mathematics (STEM).

Global literary studies and digital humanities (Global Literary Studies Research Lab [GlobaLS])

Analysing literary history from a global, decentralized and interdisciplinary perspective.

Software engineering (Systems, Software and Models [SOM Research Lab])

Studying systems and software engineering, especially with regard to promoting the rigorous use of software models and engineering principles in software design.

Urban transformation (Urban Transformation and Global Change Laboratory [TURBA Lab])

Analysing the multidimensional features of socio-environmental and socio-technological transformations at the intersection of cities and digital technologies.

Internet of things (Wireless Networks Research Lab [WiNe])

Studying systems and software engineering, especially with regard to promoting the rigorous use of software models and engineering principles in software design.

IN3 Visiting Program

The **IN3 Visiting Program** aims to create a space for interdisciplinary exchange of an international nature among researchers at different stages of their research careers.

The welcoming of visiting academic staff serves a dual purpose. First, it makes it easier for researchers visiting the IN3 to find their place in a consolidated and interdisciplinary research environment. Second, it offers IN3 researchers the opportunity to learn and share knowledge, the possibility of opening up new lines of research and the consolidation, and possible expansion, of networks.

The **Visiting Program** involves a two-sided commitment. For its part, the IN3 agrees to ensure the necessary conditions for the visiting scholar to carry out their stay, from start to finish. In turn, the visiting scholar undertakes to secure the necessary funding for their stay and to contribute, through one or more products resulting from their visit, to the IN3's environment of multidisciplinary exchange.

Final conference of the CASPER project

⌚ 145 participants

Gender and ICT (GenTIC)

The final conference of the European project known as **CASPER** (which stands for Certification-Award Systems to Promote Gender Equality in Research) was held online by the **CASPER Consortium** from 14 to 21 March. CASPER, which involves the GenTIC research group, is a European funded project analysing the feasibility and implementation of a Europe-wide certification scheme for gender equality in research. The final conference of the project consisted of two webinars. The first, entitled “**CASPER co-creation journey to develop scenarios for a European-wide certification scheme for gender equality**”, covered the main findings of the project, while the second, entitled “**Operational tools to support institutional change**”, focused on the operational instruments developed by the project to mainstream gender equality in research.

Feminist epistemologies and methodologies in dialogue with action research and the digital revolution (seminar)

⌚ 29 participants

Digital Commons (Dimmons)

The seminar entitled “**Feminist epistemologies and methodologies in dialogue with action research and the digital revolution**” was held by the **Dimmons** research group on 25 May. This was the last of three seminars that took place in preparation for the **8th Congress of Feminist Economics**. It provided an opportunity to reflect on (1) feminist epistemologies and methodologies; (2) intersectional approaches and methodologies and their connection with the history of action research; and (3) new forms and methods that have emerged amidst the digital revolution. The seminar was moderated by **Mayo Fuster Morell**, director of the Dimmons research group and the Open Chair in Digital Economy, and featured the participation of **Mònica Grau**, **Barbara Biglia**, **Maria Rodó** and **Enric Senabre**.

LAB Metadecidim – Session 17. decidim.delibera: “Deliberative Democracy on Decidim”

👤 41 participants

Communication Networks & Social Change (CNSC)

LAB Metadecidim. Session 17. decidim.delibera: “Deliberative Democracy on Decidim”, a seminar organized by the Technopolitics Unit of the Communication Networks & Social Change (CNSC) research group, took place in person on 3 June. Session 17 of LAB MetaDecidim invited the Decidim community to discuss the Decidim platform’s ability to host deliberations and the addition of new features for more structured debate, dissent, consensus and collective decision-making.

June

Enjoying Climate Change: Jouissance as a Political Factor (seminar)

👤 25 participants

Urban Transformation and Global Change Laboratory (TURBA Lab)

The seminar **Enjoying Climate Change: Jouissance as a Political Factor** was held by the TURBA Lab research group on 14 June. Led by Dr Erik Swyngedouw, professor of Human Geography at the University of Manchester, the seminar explored the dissonance between knowledge and action resulting from the current climate impasse, focusing on “jouissance” as a political factor.

European Interdisciplinary Cybersecurity Conference – EICC 2022

👤 45 participants

Kryptography and Information Security for Open Networks (KISON)

The European Interdisciplinary Cybersecurity Conference – EICC 2022 was held by the KISON research group on 15 June. Around 50 speakers discussed academic and professional aspects of cybersecurity in Europe.

Rethinking Film History Through Global and Digital Approaches (Early 1920s - Early 1970s) (international conference)

 **30** participants

Global Literary Studies Research Lab (GlobaLS)

Rethinking Film History Through Global and Digital Approaches (Early 1920s - Early 1970s), an international conference organized by the **GlobaLS** research group in collaboration with researcher **Malte Hagener** of the **Marburg Centre for Digital Culture and Infrastructure (MCDCI, Philipps-Universität Marburg)**, took place from 4 to 7 October. From a gender, ethical, interdisciplinary and digital perspective, researchers from Spain and abroad discussed the concerns of the new generation of film historians about the global dynamics that challenge Eurocentric and Western discourses and promote plural and heterogeneous ways of thinking.

October

Data Science in/for Barcelona (workshop)

 **45** participants

Complex Systems @ IN3 (CoSIN3)

Data Science in/for Barcelona, a workshop organized by the **CoSIN3** research group, took place on 30 November. The workshop served as an opportunity to share qualitative and quantitative studies focusing on the city of Barcelona and exploring topics such as data sources and the data ecosystem; urban planning and socio-demographic analysis; sustainable, responsible, universal and health-conscious mobility; and citizens' health and its relationship to the urban environment.

November

Closing events of the Looming Factory emerging cluster

Wireless Networks Research Lab (WiNe)

The **closing events of the Looming Factory emerging cluster**, organized by the **WiNe** research group, took place from 22 November to 1 December. The Looming Factory was created as part of the **Research and Innovation Strategy for the Smart Specialization of Catalonia (RIS3CAT)** and subsidized by the **European Regional Development Fund (ERDF)** to promote **Industry 4.0** in Catalonia. Two events were held to conclude its activities. The first was a general closing assembly and a visit to the demonstrators of the projects involved in the cluster. The second event, attended only by members of the cluster, was devoted to presenting the results of the cluster's **Smart Factory**, **Connected Factory**, **Robots on Factory**, and **Factories of the Future** projects.

Most Influential Paper Award at the 30th IEEE International Requirements Engineering 2022 Conference

“[How do software architects consider non-functional requirements: An exploratory study](#)”, a paper written by Dr David Ameller (researcher at the Universitat Politècnica de Catalunya), Dr Claudia Ayala (researcher at the Universitat Politècnica de Catalunya), Dr [Jordi Cabot](#) (ICREA research professor and director of the [Systems, Software and Models Research Lab \[SOM Research Lab\]](#)) and Dr Xavier Franch (researcher in the GESSI group at the Universitat Politècnica de Catalunya) won the [Most Influential Paper Award](#) at the 30th IEEE International Requirements Engineering 2022 Conference.

Open Data of the Community of Castilla and León Award, Ideas category

“[Bots for open data interactions: Conversational interfaces to facilitate access to public data \(BODI\)](#)”, a project by Marcos Gómez Vázquez (researcher at the [Systems, Software and Models Research Lab \[SOM Research Lab\]](#)) and [Jordi Cabot](#) (ICREA research professor and director of [SOM Research Lab](#)), received the [Open Data of the Community of Castilla and León Award](#) in the Ideas category. The award, presented by the [Open Data Portal of the Castilla and León Regional Government](#), honours projects that use the Portal’s data set to provide any type of idea, study, service, website or mobile application.

Awards and accolades

Accolades

Mireia Fernández-Ardèvol (associate professor at the UOC Faculty of Information and Communication Sciences and researcher with the [Communication Networks & Social Change \[CNSC\]](#) research group), **Isabel Ruiz Mallén** (associate professor at the UOC Faculty of Psychology and Education Sciences and researcher in the [Urban Transformation and Global Change Laboratory \[TURBA Lab\]](#) research group), **Cristina Cano Bastidas** (associate professor at the UOC Faculty of Computer Science, Multimedia and Telecommunications and researcher in the [Wireless Networks \[WiNe\]](#) research group), and **Mayo Fuster Morell** (senior researcher and leader of the [Digital Commons \[Dimmons\]](#) research group) were four of the 18 researchers from the UOC listed in the [Google Scholar Ranking of Female Spanish and Foreign Researchers in Spain](#), produced by the Spanish National Research Council (CSIC). The ranking seeks to shine a spotlight on talented women in research by recognizing the female researchers from Spain and abroad working at Spanish universities and research centres who have received the most citations in Google Scholar.

Dr **Rosa Borge Bravo**, adjunct instructor at the UOC Faculty of Law and Political Science and co-director of [Communication Networks & Social Change \(CNSC\)](#), was selected to lead the CNSC research group following a competitive call.

Dr **Rosa Borge Bravo**, adjunct instructor at the UOC Faculty of Law and Political Science and leader of the [Communication Networks & Social Change \(CNSC\)](#) research group, was named [regional manager for Southern Europe](#) of the [Digital Society Project](#).

Dr **Javier Borge Holthoefer**, senior researcher and leader of the [Complex Systems @ IN3 \(CoSIN3\)](#) research group, was awarded a [Ramón y Cajal \(RyC\)](#) grant from the Spanish Ministry of Science and Innovation.

Awards and accolades

Accolades

Dr Helena Rifa Pous, associate professor at the UOC Faculty of Computer Science, Multimedia and Telecommunications, researcher at K-ryptography and Information Security for Open Networks (KISON) and member of the National Cybersecurity Forum, was honoured for her selfless contribution to this initiative at the 16th STIC CCN-CERT Conference and the 4th ESPDEF-CERT Cyberdefence Conference.

Dr Diana Roig-Sanz, recipient of a starting grant from the European Research Council (ERC), ICREA research professor and coordinator of the Global Literary Studies Research Lab (GlobalLS), was among the female scientists honoured as part of the Women in Science and Innovation initiative of the Spanish Ministry of Science and Innovation. The initiative is promoted by the Ministry's Women and Science Unit and the Spanish Foundation for Science and Technology (FECYT) to recognize female scientists and innovators from Spain and abroad whose significant scientific/technological contributions to their disciplines have made them role models for the up-and-coming generations of young researchers.

Dr Aurea Mota, postdoctoral researcher at the Global Literary Studies Research Lab (GlobalLS), was named coordinator of the Political Philosophy Working Group of the Latin American Council of Social Sciences (CLACSO).

Dr Xavier Vilajosana, full professor and leader of the Wireless Networks Research Lab (WiNe), was awarded the title of ICREA Acadèmia researcher.

Awards and accolades

Accolades

Dr Ramon Ribera Fumaz, leader of the Urban Transformation and Global Change Laboratory (TURBA Lab), was appointed full professor of Economic and Urban Geography at the UOC.

Dr Israel Rodríguez Giralt, associate professor at the UOC Faculty of Psychology and Education Sciences and leader of the Care and Preparedness in the Network Society (CareNet) research group was awarded an honorary distinction by the Institute for Public Security of Catalonia (ISPC). This distinction recognizes individuals who have excelled throughout their career in training, study or scientific research in the field of security, with a particular impact on the activities of the ISPC.

As a research centre the Internet Interdisciplinary Institute (IN3) obtained the TECNIO accreditation granted by the Government of Catalonia through ACCIÓ. This accreditation aims to identify and promote technology developers in the Catalan research, development and innovation system who possess exceptional technological capabilities and are able to transfer these capabilities in order to strengthen the business community and enhance the value of the Catalan innovation ecosystem internationally.

02

Appendix 2.
Doctoral theses

Appendix 2. Doctoral theses

Communication Networks & Social Change (CNSC)

Babette Haberer, A.M. (2022). *Reforming political party organization in the XXIst century. On the transformative effect of network parties on modern representative democracy.*

Supervisors: **Dr Ismael Peña López** (Escuela de Administración Pública de Catalunya) and **Dr Antonio Calleja López** (Universitat Oberta de Catalunya - CNSC). Doctoral programme in the Information and Knowledge Society at the Universitat Oberta de Catalunya.

Terren, L. (2022). *Democratising and enlightening? Investigating the role of social media in the democratisation of the public sphere, political deliberation and public opinion.*

Supervisors: **Dr Rosa Borge** (Universitat Oberta de Catalunya - Faculty of Law and Political Science) and **Dr Anna Clua Infante** (Universitat Politècnica de Catalunya). Doctoral programme in the Information and Knowledge Society at the Universitat Oberta de Catalunya.

Global Literary Studies Research Lab (GlobaLS)

Schönborn, H.S. (2022). *Contested rights to grieve in narratives of forced migrants living in Nordrhein-Westfalen (Germany).*

Supervisor: **Dr Natalia Cantó Milà** (Universitat Oberta de Catalunya - GlobaLS and Faculty of Arts and Humanities).

Doctoral programme in the Information and Knowledge Society at the Universitat Oberta de Catalunya.

Appendix 2. Doctoral theses

Gender and ICT (GenTIC)

Rozenwajn Acheroy, S. (2022). *Influencia de los Estereotipos de Género en la Educación Deportiva de Jóvenes en Centros de Entrenamiento Profesional y en Centros Deportivos.*

Supervisors: **Dr Milagros Sáinz Ibáñez** (Universitat Oberta de Catalunya - GenTIC) and **Dr Sara García-Cuesta** (Universidad de La Laguna).

Doctoral programme in Interdisciplinary Gender Studies (interuniversity).

Systems, Software and Models Research Lab (SOM Research Lab)

Alfonso, D.I. (2022). *IoT@run-time: A model-based approach to support deployment and self-adaptations in IoT systems.*

Supervisors: **Dr Kelly Garcés** (Universidad de los Andes), **Dr Harold Castro** (Universidad de los Andes) and **Dr Jordi Cabot** (Universitat Oberta de Catalunya - SOM Research Lab).

Doctoral programme in Network and Information Technologies at the Universitat Oberta de Catalunya and doctoral programme in Engineering at the Universidad de los Andes.

Appendix 2. Doctoral theses

Urban Transformation and Global Change Laboratory (TURBA Lab)

Erol, A. (2022). *Reformulation of the relationship between individual freedom and technology theorized through/by the channel of cinematic philosophy*.

Supervisors: Dr Jordi Sánchez Navarro (Universitat Oberta de Catalunya - Faculty of Information and Communication Sciences and the Learning, Media and Entertainment Research Group [GAME]) and Dr Ivan Serrano (Universitat Oberta de Catalunya - TURBA Lab and Faculty of Law and Political Science).

Doctoral programme in Humanities and Communication at the Universitat Oberta de Catalunya.

Zherdev, N. (2022). *The festivalization of the creative city: A study of two creative quarters in Barcelona and Berlin*.

Supervisors: Dr Ramon Ribera Fumaz (Universitat Oberta de Catalunya - TURBA Lab and Faculty of Economics and Business) and Dr Alba Colombo (Universitat Oberta de Catalunya - Faculty of Arts and Humanities).

Doctoral programme in the Information and Knowledge Society at the Universitat Oberta de Catalunya.

Wireless Networks (WiNe)

Galve Ceamanos, S. (2022). *Predictive maintenance of industrial water cooling systems*.

Supervisors: Dr Vicenç Puig (Universitat Politècnica de Catalunya) and Dr Xavier Vilajosana (Universitat Oberta de Catalunya - WiNe and Faculty of Computer Science, Multimedia and Telecommunications).

Doctoral programme in Network and Information Technologies at the Universitat Oberta de Catalunya.

Appendix 3.
Projects

Appendix 3. Projects

International projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
Smart Cities in Global Comparative Perspective: Worlding and Provincializing Relationships	Urban Transformation and Global Change Laboratory (TURBA Lab)	Ramon Ribera Fumaz	2020-2023	Sciences and Humanities Research Council of Canada
Path Selection Engine for Reliable and Available Wireless	Wireless Networks (WiNe)	Xavier Vilajosana Guillén	2021-2022	Cisco Systems International B.V.
An algorithmic awareness paradox? Exploring the causes and contradictions of algorithmic awareness	Communication Networks & Social Change (CNSC)	Sara Paz Suárez Gonzalo	2021-2028	Sciences and Humanities Research Council of Canada
Aging in Data	Communication Networks & Social Change (CNSC)	Mireia Fernández-Ardèvol	2021-2028	Sciences and Humanities Research Council of Canada

Appendix 3. Projects

European projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
<u>+RESILIENT Mediterranean Open REsouRcEs for Social Innovation of SociaLly ResponsIve ENTerprises</u>	Gender and ICT (GenTIC), in collaboration with research groups at other universities or centres	Jörg Müller	2018-2022	European Commission
<u>Redes Sociales del Pasado. Mapeo de la Modernidad Literaria Hispana y Lusófona, 1898-1959</u>	Global Literary Studies Research Lab (GlobaLS)	Diana Roig-Sanz	2018-2024	European Commission
<u>PyroLife – Formando una nueva generación de expertos/as en la gestión integrada de incendios forestales</u>	Care and Preparedness in the Network Society (CareNet), in collaboration with research groups at other universities or centres	Míriam Arenas Conejo	2019-2024	European Commission
<u>Platform Labour in Urban Spaces: Fairness, Welfare, Development</u>	Digital Commons (Dimmons), in collaboration with research groups at other universities or centres	Mayo Fuster Morell	2019-2022	European Commission

Appendix 3. Projects

European projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
Unleashing future-facing urban hubs through culture and creativity-led strategies of transformative time	Urban Transformation and Global Change Laboratory (TURBA Lab)	Ramon Ribera Fumaz	2020-2024	European Commission
<u>CASPER Certification-Award Systems to Promote gender Equality in Research</u>	Gender and ICT (GenTIC), in collaboration with research groups at other universities or centres	Jörg Müller	2020-2022	European Commission
<u>AIDOaRT AI-augmented automation for efficient DevOps, a model-based framework for continuous development At RunTime in cyber-physical systems</u>	Systems, Software and Models Research Lab (SOM Research Lab)	Jordi Cabot Sagrera	2021-2024	European Commission
<u>TRANSACT Transform safety-critical cyber-physical systems into distributed solutions for end-users and partners</u>	Systems, Software and Models Research Lab (SOM Research Lab)	Abel Gómez Llana	2021-2024	European Commission

Appendix 3. Projects

European projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
Consultant to Review the SFI Gender Strategy and Gender, Equality, Diversity and Inclusion (EDI) Policies and Practices within SFI	Gender and ICT (GenTIC)	Rachel Louise Palmén	2022	Science Foundation Ireland
Activating Spaces with neuroDiverse Publics	Urban Transformation and Global Change Laboratory (TURBA Lab)	Ramon Ribera Fumaz	2022	European Commission
<u>INSPIRE Centre of Excellence on Inclusive Gender Equality in Research & Innovation: Creating Knowledge & Engaging in Collaborative Action</u>	Gender and ICT (GenTIC), in collaboration with research groups at other universities or centres	Rachel Louise Palmén	2022-2026	European Commission

Appendix 3. Projects

European projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
Educational Toolkit for Secondary Schools in Wildfires and the Climate Change Context	Care and Preparedness in the Network Society (CareNet), in collaboration with research groups at other universities or centres	Míriam Arenas Conejo	2021-2024	European Commission
SB-RA2-TA3: Relevance of intelligent tutoring systems to IP education	Systems, Software and Models Research Lab (SOM Research Lab)	David Bañeres Besora	2022-2024	European Patent Office (EPO)
Deep learning for multi-technology fusion in industrial indoor asset localization and tracking	Wireless Networks (WiNe)	Xavier Vilajosana Guillén	2022-2023	European Commission

Appendix 3. Projects

National projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
<u>GESTEMI Efectos y eficacia de las intervenciones para incrementar el interés de las jóvenes por estudios y profesiones científicas y tecnológicas</u>	Gender and ICT (GenTIC), in collaboration with the Universidad de La Laguna	Milagros Sáinz Ibáñez	2018-2022	Spanish Ministry of Science, Innovation and Universities
The political ecology of urban resilience to hydro-climatic events in Spain	Urban Transformation and Global Change Laboratory (TURBA Lab)	Hug March Corbella and Isabel Ruiz Mallén	2019-2022	Spanish Ministry of Science, Innovation and Universities
GDPR-compliant CONSUMER oriENTed IOT (CONSENT): HOME IOT	Kryptography and Information Security for Open Networks (KISON)	David Megías Jiménez and Helena Rifà Pous	2019-2022	Spanish Ministry of Science, Innovation and Universities
An inclusive approach to assessing integrative scenarios and visions for protected area management	Urban Transformation and Global Change Laboratory (TURBA Lab)	Isabel Ruiz Mallén	2019-2022	Spanish Ministry of Science, Innovation and Universities

Appendix 3. Projects

National projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
Shaping 5G technologies and beyond to support the digitalization of the industry	Wireless Networks (WiNe)	Xavier Vilajosana Guillén	2019-2022	Spanish Ministry of Science, Innovation and Universities
Low-cost, UHF RFID sensor for fabric material detection and on-body sensing	Wireless Networks (WiNe)	Joan Melià Seguí	2020-2022	"la Caixa" Foundation
<u>DISSIMILAR Detection of Fake News on Social Media Platforms</u>	K-ryptography and Information Security for Open Networks (KISON) and Communication Networks & Social Change (CNSC)	David Megías Jiménez	2021-2024	Spanish Ministry of Science, Innovation and Universities
<u>LOC OSS Low-code development of smart software</u>	Systems, Software and Models Research Lab (SOM Research Lab)	Jordi Cabot Sagrera and Robert Clarisó Viladrosa	2021-2024	Spanish Ministry of Science, Innovation and Universities

Appendix 3. Projects

National projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
Gender equality qualities of the platform economy. A framework of analysis	Digital Commons (Dimmons)	Mayo Fuster Morell	2021-2024	Spanish Ministry of Science, Innovation and Universities
La novela como forma global. Desafíos poéticos y circulación literaria transfronteriza	Global Literary Studies Research Lab (GlobaLS), in collaboration with the UOC Faculty of Arts and Humanities	Neus Rotger Cerdà and Marta Puxan Oliva	2021-2024	Spanish Ministry of Science, Innovation and Universities
<u>BODI Bots para interactuar con datos abiertos - Interfaces conversacionales para facilitar el acceso a los datos públicos</u>	Systems, Software and Models Research Lab (SOM Research Lab)	Jordi Cabot Sagrera	2021-2023	Spanish Ministry of Science, Innovation and Universities
Realizing potentials of nature-based climate shelters in school environments for urban transformation	Urban Transformation and Global Change Laboratory (TURBA Lab)	Isabel Ruiz Mallén	2022-2025	Spanish Ministry of Science, Innovation and Universities

Appendix 3. Projects

National projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
humAn complex system ecoloGy in sOcial and uRbAn Spaces	Complex Systems @ IN3 (CoSIN3)	Javier Borge Holthoefer	2022-2025	Spanish Ministry of Science, Innovation and Universities
<u>HORIGESTEM Ampliando horizontes de las chicas en ámbitos de ciencia y tecnología (STEM) a través de intervenciones con mujeres referentes</u>	Gender and ICT (GenTIC), in collaboration with the Universidad CEU San Pablo and the University of California	Milagros Sáinz Ibáñez	2022-2025	Spanish Ministry of Science, Innovation and Universities
Bringing Sustainable Cybersecurity to the Internet of Things – Cybersecurity	K-ryptography and Information Security for Open Networks (KISON)	David Megías Jiménez	2022-2025	Spanish Ministry of Science, Innovation and Universities
Evolución y usos alternativos de la conectividad como respuesta a la digitalización sostenible de la sociedad	Wireless Networks (WiNe)	Xavier Vilajosana Guillén	2022-2025	Spanish Ministry of Science, Innovation and Universities

Appendix 3. Projects

National projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
Bots inteligentes para el desarrollo de Open Source	Systems, Software and Models (SOM Research Lab)	Jordi Cabot Sagrera and Javier Luis Cánovas Izquierdo	2022-2024	Spanish Ministry of Science, Innovation and Universities
The Digital Turn in Environmental Governance: Insights from the energy and agri-food systems	Urban Transformation and Global Change Laboratory (TURBA Lab)	Lucía Argüelles Ramos and Zora Kovacic	2022-2024	Spanish Ministry of Science, Innovation and Universities
Habilitando la Nube Continua y Sostenible	Wireless Networks (WiNe)	Xavier Vilajosana Guillén	2022-2024	Spanish Ministry of Science, Innovation and Universities
3D Printing All-Solid State Batteries for the Internet of Things Applications (3DSTORE)	Wireless Networks (WiNe)	Xavier Vilajosana Guillén	2022-2025	Spanish Ministry of Science, Innovation and Universities

Appendix 3. Projects

Regional projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
Looming Factory	Wireless Networks (WiNe)	Pere Tuset Peiró	2019-2022	Justice Department, Government of Catalonia
Predictive maintenance of industrial cooling systems	Wireless Networks (WiNe)	Xavier Vilajosana Guillén	2019-2022	Catalan University and Research Grant Management Agency (AGAUR)
FEM IOT	Wireless Networks (WiNe)	Xavier Vilajosana Guillén	2019-2022	Government of Catalonia
Generació massiva de xatbots sota demanda. Xatkit	Systems, Software and Models Research Lab (SOM Research Lab)	Jordi Cabot Sagrera	2020-2022	Catalan University and Research Grant Management Agency (AGAUR)

Appendix 3. Projects

Regional projects

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
MOBILITY LAB ANOIA	K-ryptography and Information Security for Open Networks (KISON) and the Learning, Media and Entertainment Research Group (GAME)	Jordi Serra-Ruiz	2021-2022	Government of Catalonia
<u>WUICOM-BCN</u> <u>Comunidades de interfaz resilientes en el fuego de Barcelona</u>	Care and Preparedness in the Network Society (CareNet)	Israel Rodríguez Giralt	2021-2023	Barcelona City Council
<u>LIKE-BCN: SociaL accessIble, and walKable Barcelona</u>	Complex Systems @ IN3 (CoSIN3)	Albert Solé Ribalta	2021-2023	Barcelona City Council

04

Appendix 4.
Consultancy
services

Appendix 4. Consultancy services

International consultancy services

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
Adaptation model for the Brief Early Quality Inventory (BEQI), a pilot study	Gender and ICT (GenTIC)	Sergi Fàbregues Feijóo	2022	Universidad del Norte
TRABOTS Theoretical, methodological and technological supervision and identification of scientific and technological contributions in formal methods and model-driven software development in the context of the project	Systems, Software and Models Research Lab (SOM Research Lab)	Jordi Cabot Sagrera	2022	Universidad de la Frontera

Appendix 4. Consultancy services

European consultancy services

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
Traceable co-evolution and certification in the age of versatile software systems	Systems, Software and Models Research Lab (SOM Research Lab)	Jordi Cabot Sagrera	2021-2022	Commissariat à l'Energie Atomique et aux Energies Alternatives

Appendix 4. Consultancy services

National consultancy services

Project name	Research group	IN3-UOC principal investigator	Period	Funding body
