Introduction

What is the IN3?

The [Internet Interdisciplinary Institute \(IN3\)](#) is a cutting-edge research centre at the [Universitat Oberta de Catalunya \(UOC\)](#) specializing in the study of the network society. The network society is the result of the increased centrality and the changes—in the conditions for generating and processing information and data—arising from the emergence of the internet and digital technologies (ICT).

The IN3, unlike other research centres, connects different engineering disciplines, particularly IT and telecommunications, with the social sciences, health sciences, life sciences and the arts. As a result, the IN3, currently concentrated in **11 research groups**, is grounded in **multidisciplinarity, transdisciplinarity and interdisciplinarity**.

In the context of the engineering disciplines, the IN3 creates technologies that feed into the network society and impact multiple areas of human activity. And in the context of the social sciences, health sciences, life sciences and the arts, the IN3 identifies and analyses the effects of new technologies on society. Thanks to the mutual feedback of the engineering disciplines, social sciences, health sciences, life sciences and the arts, the IN3 identifies open problems in the network society and the challenges of ICT related to human activity.

The IN3, in order to maintain scientific excellence, hosts an annual meeting of the [Scientific Advisory Board](#). This board, made up of ten researchers from diverse research centres and universities in Europe and the United States, serves a dual purpose. First, the board periodically evaluates the IN3's research groups and, second, it advises the IN3 on attracting new talent and suggests areas of improvement for the future.

Introduction

Mission, Vision and Values of the IN3

Mission

The IN3's mission, based on research on the knowledge society (network society), puts transversality and interdisciplinarity at the forefront, placing special emphasis on the interaction between Human and Engineering Sciences, and establishes social progress as a major research goal.

Vision

With regard to its vision, the IN3 aspires to become a pioneering reference centre in terms of the collaboration of the life sciences and the engineering disciplines in order to conduct frontier research on the network society. To this end, it focuses its research efforts on analysis of the effect of ICT and internet development on human activity, leading the formulation of technological solutions to address the needs and demands of the network society, and, in doing so, contributing to social progress.

Values

The IN3's values are commitment, respect, transparency, professionalism and sustainability.

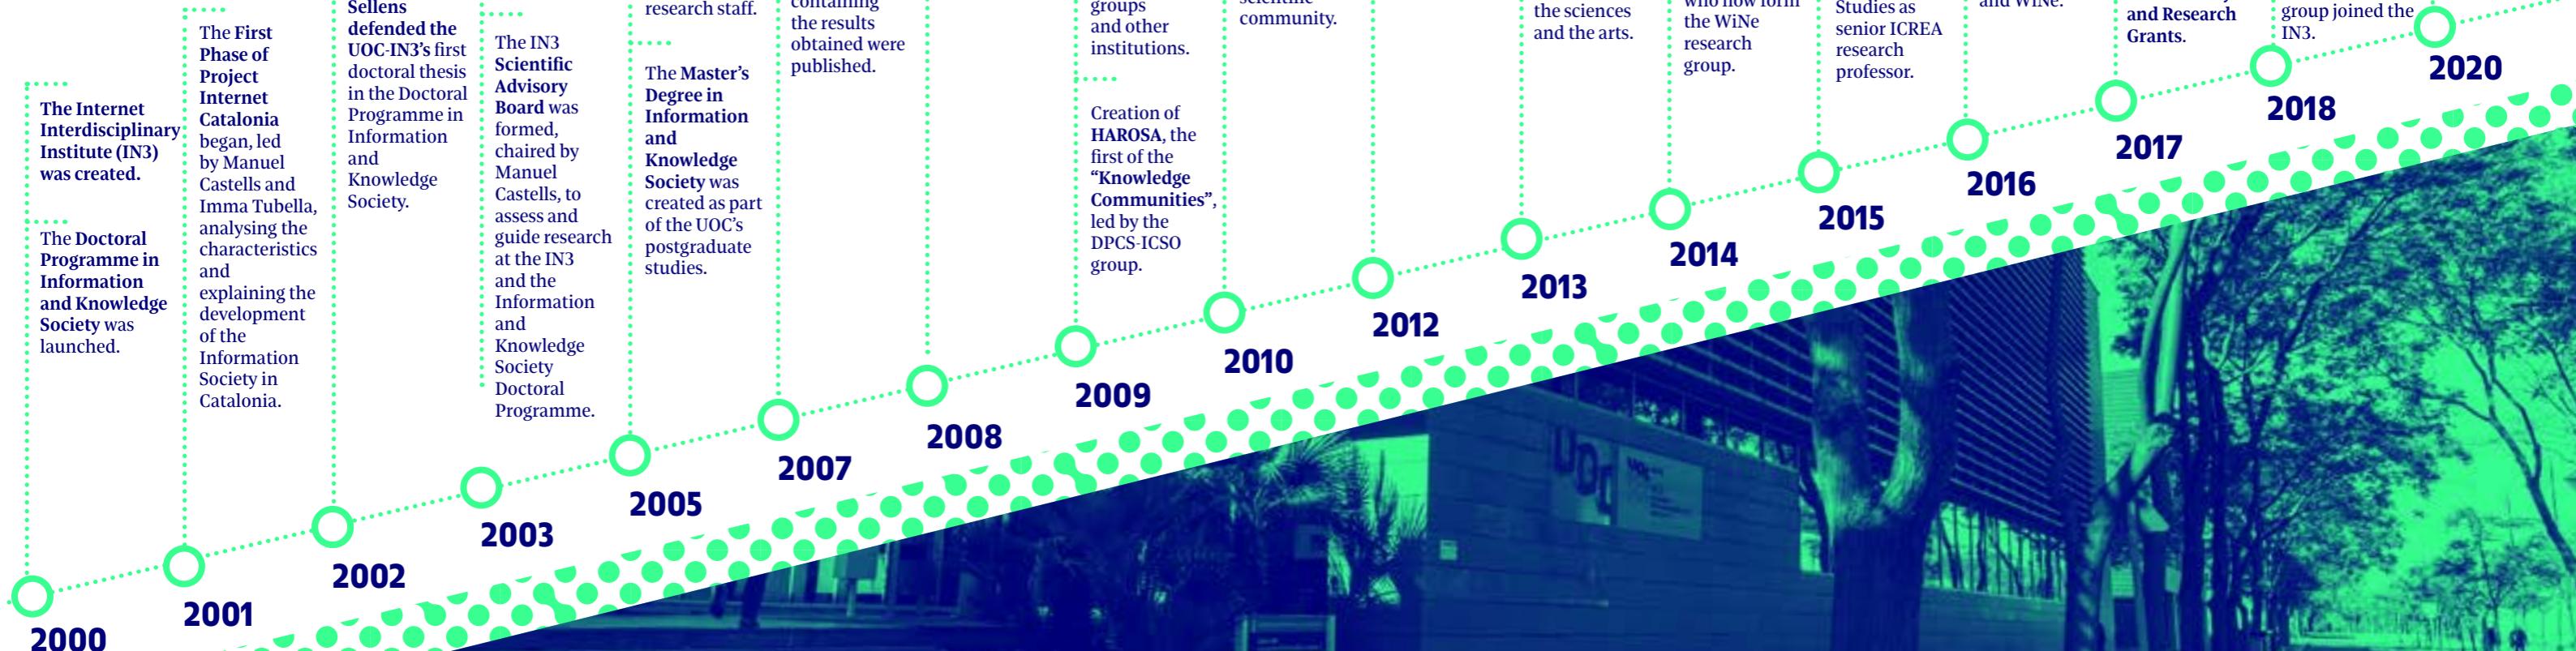

Introduction

20 years of the IN3

In 2020, the IN3 celebrated its **20th anniversary**. Founded in 2000 at the hands of **Gabriel Ferraté** (president of the UOC and the IN3) and **Imma Tubella** (UOC vice president for research and vice president of the IN3), it was the UOC's first research centre.

The IN3's anniversary coincided with two key milestones in recent years, the **25th anniversary of the UOC**, the first totally online university in the world, in 2020, and the **25th anniversary of the publication of the first volume of the trilogy *The Information Age*** by Professor Manuel Castells, in 2021.

Accordingly, on the basis of the concurrence of these anniversaries, the conference "***The Network Society Today: (Revisiting) The Information Age Trilogy***" was held. The conference, which, on account of the COVID-19 pandemic was conducted virtually on the **Decidim** platform last November, gave academics from different disciplines and different universities and research centres the opportunity to retrospectively review the trilogy and analyse the relevance of the pioneering work of Manuel Castells in light of today's information society.

20th anniversary of the IN3!

Barcelona hosted the Sharing Cities Summit, the biggest encounter of cities focusing on the collaborative economy, organized by the DIMMONS group and Barcelona City Council.

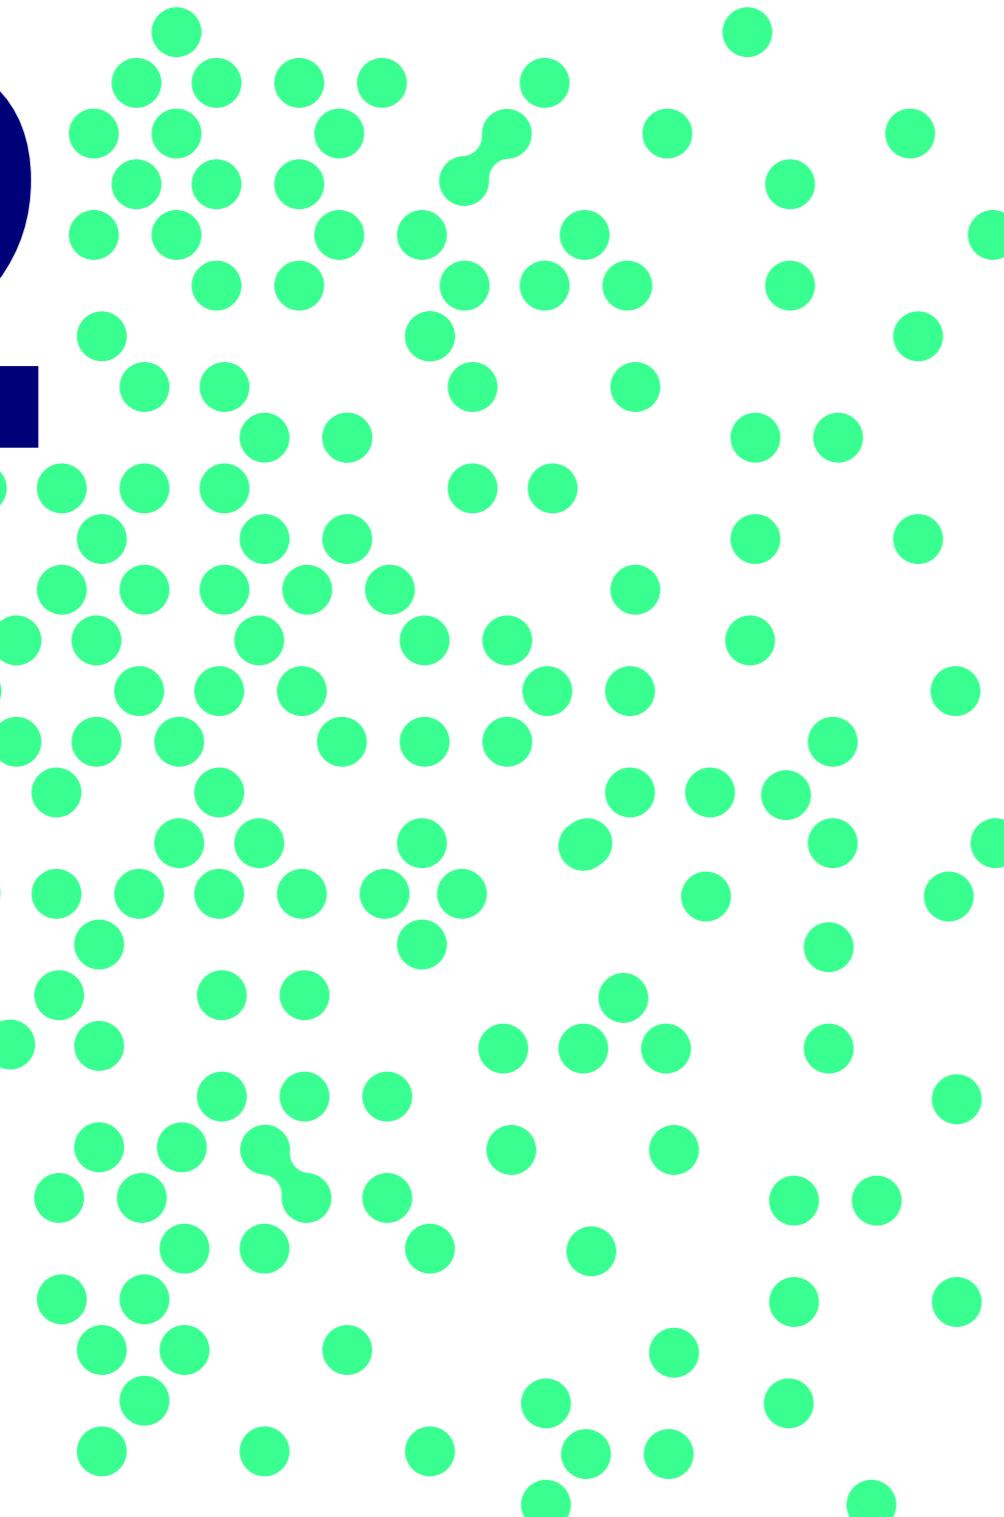

Incorporation of the first ERC Starting Grant researcher at the IN3. Diana Roig-Sanz, principal investigator of the GlobalS group, received a grant from the European Research Council (ERC) and her group joined the IN3.

Organization

Who are we?

Administrative Staff

The administrative staff is a working group that provides support to both the centre's management and the research staff in the various research groups in the management of work spaces, the communication of activities and the welcoming of new staff, among other duties.

Isabel Carol Ciurana

Management and Administrative Support Specialist

Holder of a llicenciatura in Humanities from Pompeu Fabra University. She has been a Management and Administrative Support Specialist at the IN3 since 2005 and a Support Specialist at the UOC Doctoral School since 2015.

Montserrat Mir Buxalleu

Management and Administrative Support Specialist

Holder of a llicenciatura in English Philology from the University of Barcelona and completion of a postgraduate course in Software Localization from the University of Limerick. She has been a Management and Administrative Support Specialist at the IN3 since 2010.

Raissa Alvear Contreras

Management and Administrative Support Specialist

Holder of a llicenciatura in Psychology and Master's Degree in Mental Health and Research in Neurotoxicology from Universitat Rovira i Virgili. She has been a Management and Administrative Support Specialist at the IN3 since 2020.

Organization

Who are we?

Technical Staff

The technical staff is a working group that provides support to the various IN3 research groups in the design of software solutions and the analysis of statistical data.

Alexandre Dotor Casals
Specialist

Holder of a llicenciatura in Computer Engineering from the Universitat Politècnica de Catalunya. Research assistant in the KISON (K-riptography and Information Security for Open Networks) research group for three years. He has been a Software Engineering Specialist at the IN3 since 2015.

Claudia Malpica Lander
Specialist

Holder of a llicenciatura in Sociology from the Central University of Venezuela and a Doctorate in Statistics from the University of Salamanca. Adjunct Professor at the University of Barcelona and Quantitative Research and Data Analysis Tools Specialist at the IN3 since 2015.

Organization

Who are we?

Communication Staff

The communication staff is responsible for coordinating the communication of the IN3 and its research groups through different information channels.

Goretti Brunet Gonzalez
Communication Specialist

Holder of a llicenciatura in Journalism from the Universitat Autònoma de Barcelona and a llicenciatura in Political Science and Government from Pompeu Fabra University. Completion of postgraduate Community Manager and Social Media courses from the University of Barcelona. She has been a Communication Specialist in the UOC Research and Media Communication Department since 2019. She coordinates the communication of the IN3 and the Doctoral School of the UOC.

Organization

Who are we?

Research Groups

The IN3 is currently composed of **11** research groups.

Care and Preparedness in the Network Society (CareNet)

Group Leader: Dr. Israel Rodríguez Giralt (*Full Research Professor*)
Research area: Social Sciences

Communication Networks & Social Change (CNSC)

Group Leader: Dra. Mireia Fernández-Ardèvol (*Senior Researcher*)
Research area: Communication, digital sociology, datified societies, technopolitics and human-computer interaction

Complex Systems @ IN3 (CoSIN3)

Group Leader: Dr. Javier Borge Holthoefer (*Senior Researcher*)
Research area: Multidisciplinary applications and complex systems theory (urban science, computational social science, big data analysis)

Organization

Digital Commons (DIMMONS)

Group Leader: Dra. Mayo Fuster (*Senior Researcher*)

Research area: Multidisciplinary (political science, social anthropology, economics, informatics and arts)

Internet Computing & Systems Optimization (ICSO)

Group Leader: Dr. Ángel A. Juan (*Full Professor*)
Research area: Computer engineering

K-ryptography and Information Security for Open Networks (KISON)

Group Leader: Dr. David Megías (*Full Professor and Director del IN3*)
Research area: Computer science and artificial intelligence, telecommunications engineering

Gender and ICT (GenTIC)

Group Leader: Dra. Milagros Sáinz (*Senior Researcher*)
Research area: Multidisciplinary (psychology, sociology, economics, geography and anthropology)

Organization

Who are we?

Research Groups

The IN3 is currently composed of **11** research groups.

Global Literary Studies (GlobaLS)

Group Leader: **Dra. Diana Roig Sanz**

(ERC Starting Grant holder, ICREA Research Professor)

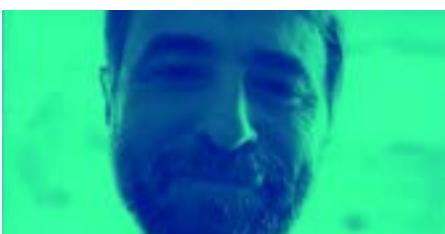

Research area: Multidisciplinària (humanities and social sciences)

Systems, Software and Models (SOM Research Lab)

Group Leader: **Dr. Jordi Cabot** (ICREA Research Professor)

Research area: Computer engineering

Urban Transformation and Global Change Laboratory (TURBA Lab)

Group Leader: **Dr. Ramon Ribera** (Adjunct Professor)

Research area: Multidisciplinary (geography, urban studies, environmental science, political science, economics, and science and technology studies)

Wireless Networks Research Lab (WiNE)

Group Leader: **Dr. Xavier Vilajosana** (Full Professor)

Research area: Computer and telecommunications engineering

IN3 Visiting Program

The **IN3 Visiting Program** aims to create a space for interdisciplinary exchange of an international nature among researchers at different stages of their research careers.

The welcoming of visiting academic staff serves a dual purpose. First, it makes it easier for researchers visiting the IN3 to find their place in a consolidated and interdisciplinary research environment. Second, it offers IN3 researchers the opportunity to learn and share knowledge, the possibility of opening up new lines of research and the consolidation, and possible expansion, of networks.

The **IN3 Visiting Program** entails a dual commitment. The IN3 commits to providing, for the duration of the academic's stay, the necessary conditions for working. In turn, the visiting scholar commits to securing the necessary funding for their stay and to contributing, through one or more products resulting from their visit, to the IN3's interdisciplinary exchange space.

Appendix 2 : Doctoral Theses

This appendix lists the doctoral theses read in 2020 that were directed by at least one director of an IN3 research group.

Appendix 2 : Doctoral Theses

Communication Networks & Social Change (CNSC)

Wagner, S. (2020). *A multi-sited ethnography of the decolonization of mobile media among Guarani*. Director: Mireia Fernández-Ardèvol (Universitat Oberta de Catalunya - CNSC). Doctoral programme in Information and Knowledge Society of the Universitat Oberta de Catalunya.

Marichal Baráibar, S. (2020). *Exploring through prototyping embodied interaction design developing systems for mathematics learning for children with visual impairments and without*. Directors: Josep Blat (Universitat Pompeu Fabra) and Andrea Rosales (Universitat Oberta de Catalunya). Doctoral programme in Information and Communication Technologies of Pompeu Fabra University.

Complex Systems @ IN3 (CoSIN3)

Palazzi, M. J. (2020). *Structural and dynamical interdependencies in complex networks at meso- and macroscale: nestedness, modularity, and in-block nestedness*. Directores: Albert Solé-Ribalta and Javier Borge Holthoefer (Universitat Oberta de Catalunya). UOC doctoral programme in Network and Information Technologies.

Internet Computing & Systems Optimization (ICSO) and Wireless Networks Research Lab (WiNE)

Juan Ferrer, A. (2020). *Ad-hoc Formation of Edge Clouds over Heterogeneous Non-dedicated Resources*. Directors: Joan M. Marquès (Universitat Oberta de Catalunya - ICSO) and Josep Jorba (Universitat Oberta de Catalunya - WiNE). UOC doctoral programme in Network and Information Technologies.

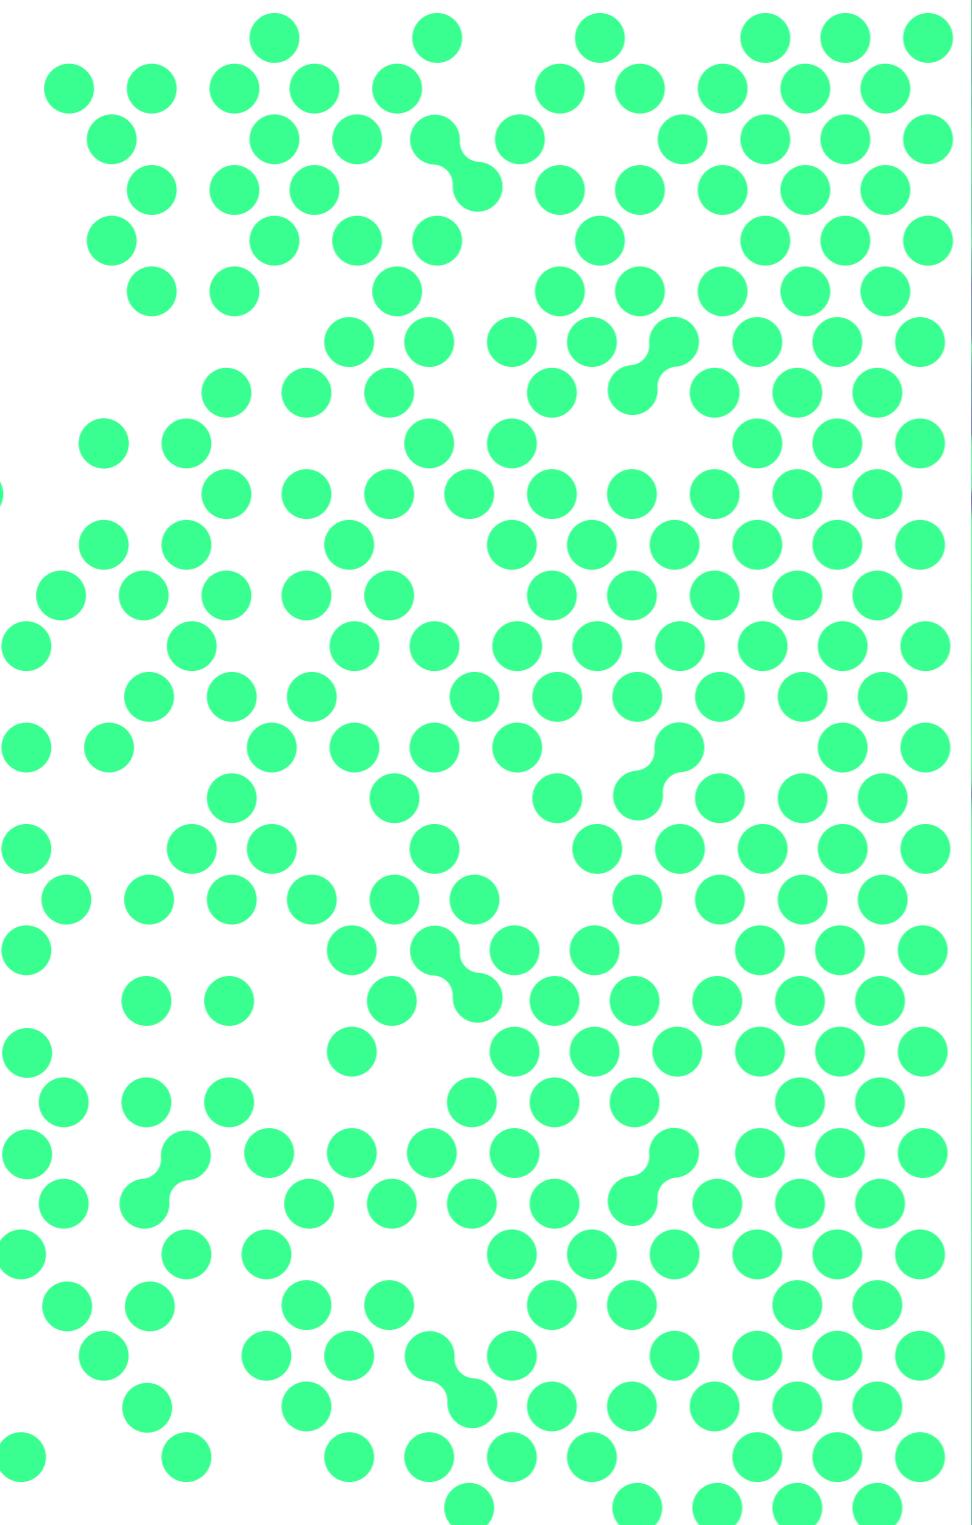

Appendix 2 : Doctoral Theses

Wireless Networks Research Lab (WiNE)

Suci, I. (2020). *Energy Aware Optimization for Low Power Radio Technologies*. Directors: Xavier Vilajosana (Universitat Oberta de Catalunya) and Andrea Bartoli (Worldsensing). Doctoral programme in Telematics Engineering of the Universitat Politècnica de Catalunya.
